

## Native Prairie Restoration for Pollinators

This project is led by **Dr. Shalene Jha** and **Dr. Elinor Lichtenberg** in collaboration with **Dr. Norma Fowler** of the **University of Texas at Austin** and **Dr. Kristen Baum** of **Oklahoma State University**. The Hagerman Wildlife Refuge and the USFWS conducted prescribed burns as part of the study on native prairie restoration, which highlights the importance of using prescribed burns to maintain wildflowers in native grasslands.
