

## INDEX POSTERS NATIVE BEES & BUTTERFLIES per SITE, VICINITY, COUNTY, ECOREGION of TEXAS

As part of the UT Jha Lab Outreach Program at The University of Texas at Austin, Laurel Treviño Murphy, in collaboration with Shalene Jha, Kim Ballare and Rebecca Ruppel, made photo-illustrated species lists (color mini-posters) of the most common native bees/butterflies for each study site in Texas. The first 10 sites focus on bees and the last 21 sites include butterflies. Site names are in alphabetical order within county and ecoregion.

This document is found on the following outreach webpage:

<https://w3.biosci.utexas.edu/jha/landowners-naturalists/texas-pollinator-guides>

The complete dataset is found in the following publication:

Ballare, Kimberly; Neff, Jack; Ruppel, Rebecca; Jha, Shalene. 2020. Multi-scalar drivers of biodiversity: local management mediates wild bee community response to regional urbanization. Zenodo. <https://zenodo.org/record/3964663#.Yqkd2ezMLC0>

### NATIVE BEE MINI POSTERS

Site, Urban Vicinity, County (Co.)	Texas Ecoregion
<a href="#">Balcones Canyonlands NWR</a> National Wildlife Refuge / NW Austin, Travis Co.	Edwards Plateau – Balcones Canyonlands
